

J. youthpass

INFOSHEET

H

how to use this form?

This form is about the youthpass. The idea is that you describe all the activities that your organisation executes to stimulate and facilitate the use of the youthpass by the volunteers. How, what, who and when is doing what to ensure that volunteers are using it as tool to map their experiences and to reflect on their learning?

The ESC program stresses the use of formally recognized tools to map informal learning experiences. That is why the Youthpass is discussed in a separate part of the audit process.
